Mission Statement

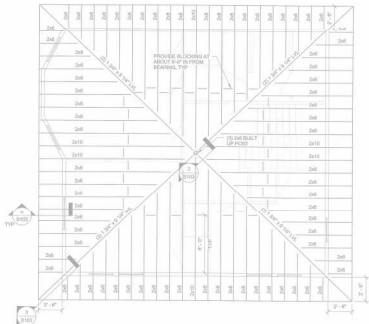

Recovery In Action provides sober, safe and permanent housing for those striving for sobriety, accountability, and independence. Our goal is to fill the need for housing for individuals recovering from substance abuse who want to grow in their sobriety. In addition to a clean living environment, we provide a support system and fellowship while empowering residents to become self-supporting individuals who strengthen their families and contribute to their communities.

Recovery In Action (RIA)

Founded in 1998, RIA helps local people recover from substance abuse with the support of RIA members who are, themselves, in recovery. We currently have 3 houses in Des Moines area with 8 men in each house.

What is Project 1542?
It is the newest Recovery In Action Sober House, located at 1542 30th Street in the Drake Neighborhood. RIA Sober Houses provide a safe and structured environment for men in early recovery. This project will not only fulfill that mission, it will also help bring a change in the appearance of the neighborhood. By purchasing this fire damaged house, that the City of Des Moines condemned in 2013, RIA will turn an eyesore into a beautiful home.
